

Rowan Class Celebration

Newsletter Term 5

We have enjoyed learning about multiplication and division in Maths, using many practical ways to solve the questions.

This term our History topic has been Explorers.

We have enjoyed learning about significant Explorers and finding out about their travels.

We have enjoyed continuing to learning about plants in our Science lessons. We have identified a range of garden and wild plants around our school and have enjoyed going on a tree hunt to identify the deciduous and evergreen trees on our grounds. We identified a range of fruits and vegetables and were so surprised to learn that sweet peppers are actually fruit!

We enjoyed taking part in the coronation celebrations at our school street party, which due to the weather had to be relocated to the school hall, to commemorate the coronation of King Charles III.

We loved taking part in our mini marathon. We supported each other and enjoyed cheering on other classes.

Looking forward to Term 6

In English, we will be exploring some different Traditional Tales from around the world. We will be asking questions, making predictions and inferences about settings and characters. We will also be retelling a traditional tale and writing the narrative.

In Maths, we will begin the term by focusing on Place Value with numbers all the way up to 100. We will then move onto measurement and we will look at money and time. We will also introduce position and direction language and revise 2D and 3D shape. Throughout the term, we will be incorporating a lot of problem solving and reasoning for children to apply and explain what they have learnt.

Important Date
Wingham Wildlife Trip
Thursday 22nd June

PE DAYS

Our PE days will remain as Tuesday and Thursday.
Please remember to wear PE kit on these days if you are not already wearing our active uniform.
Please remember to remove or tape earrings on these days.
