

# Acorn Class Newsletter

## Term 5

Term 5 has been another fantastic term; I can't believe we only have one more term left in school before Acorns move on into Year 1!

As always, Acorns have been extremely busy in their learning. We have learnt about doubling and sharing numbers and improved our skills in using numbers beyond 10 to add on, count, recognise and order. Alongside this we have continued on with shape exploration too. We are working hard within our writing. It has been wonderful to see how well the children are progressing with their word and sentence writing and I am proud of proud of each and every one of them for their efforts.

Our topic of 'Transport, Travel and Journeys' has proven to be a great hit with the class. The children were fascinated by Google Earth as we zoomed in on different places around the world. They have also enjoyed creating maps of their journey into school and mapping out stories from our key texts.

And of course the highlight of our term was the our class trip to Curly's Farm. The children were amazing and made great farmers, tending to all the animals.

Here are some pictures from the term:

### Exploring Shape

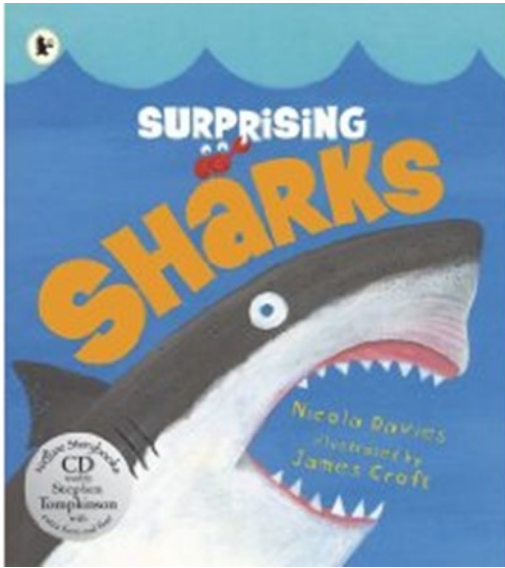

### Butterfly Release Day

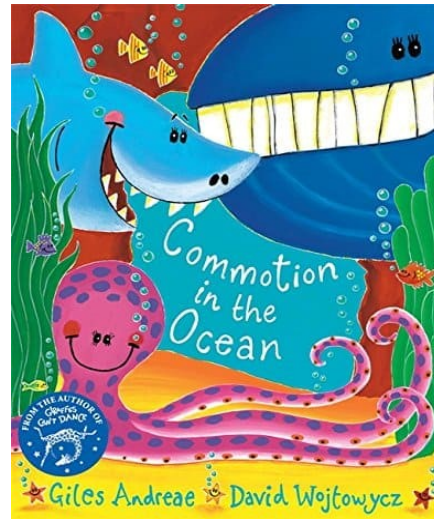

### Curly's Farm

## In Term 6....” Under the Sea”

Our learning will take on the theme of ‘Under the Sea’ with lots of lovely texts to inspire us, develop our vocabulary and love for reading and books.

## And things to remember...

As we spend much of our day outside and the weather is getting warmer:

- please remember to bring named hats to school everyday for outdoor learning and play.
- sun cream will need to be applied to your child before school.
- sun cream can be brought in from home and kept in your child’s tray so **they can apply it to themselves** throughout the day when necessary. As always, please make sure everything is named. We find the roller ball type sun cream bottles work best as the children are able to manage these quite well on their own, without too much trouble or spillage!
