

What is happening in Beech Class in Term 2?

**Multiplication and
division A**

Fractions A

Maths

The term will begin with a unit on multiplication and division. The class will then move onto fractions where they will be looking at equivalent fractions and converting improper fractions.

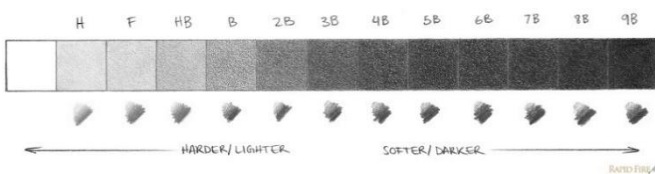

English

Written by Nicola Davies and illustrated by Laura Carlin, *The Promise* is a poetic picture book about an urban thief whose life and grey city are transformed through a simple pledge to nature. The children will use the story to write their own narrative as their main piece of work.

Science

Our Science topic in Term 2 is 'Properties of Materials'. Throughout the term Beech Class will classify, compare, research and investigate different materials, considering their properties, such as their hardness, solubility and transparency. The children will develop their knowledge of solids, liquids and gases to decide how mixtures might be separated.

Art

The skill of sketching will be explored throughout the term. Perspective, pressure and form will all be explored during the topic

PE

Swimming will continue on a Thursday in Term 2.
Football will also continue to be on Fridays.

The children will come to school in normal school uniform on Tuesday because cricket will not be running in Term 2.

Geography

The children will look into tectonic plates, volcanoes and earthquakes in Term 2!

They will begin to understand how the structure of the Earth causes tectonic plates to move and how volcanoes are formed!
