

Rowan Class Celebration Newsletter Term 4

This term our topic has been London. We have loved locating London on a map, comparing Lower Halstow to London and learning about famous London Landmarks. The children used lots of recycled materials to make replicas of their favourite London Landmark.

In English this term we have been learning about our environment and how to make our world a better place. We collected litter from around the school and planted wild flowers in our forest school.

We have really enjoyed learning about length, height, mass and volume this term. We were able to make learning very practical and lots of fun.

In Science this term we have begun our topic on plants. We thought about the parts of a plant and what a plant needs to grow. We planted our own beans to help us with our learning.

In art this term we learnt about the artist Andy Warhol and even created our own pieces of art inspired by his work.

On World Book Day we all dressed up as our favourite book characters!

Things to practise at home

Next term in History we will be learning about explorers.

In Science we will continue to learn about plants.

Please continue to practise spelling the Year 1 common exception words.

Can you use the words to write sentences?

Please continue to read with your child and discuss their books as often as you can.
