

Willow Class Celebration Newsletter

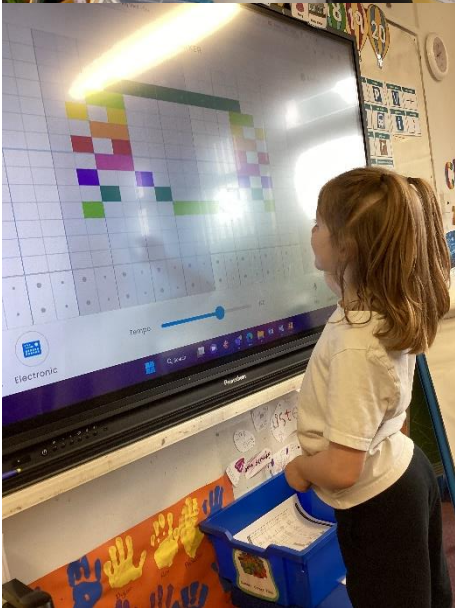

Willow class have had an amazing fourth term. My favourite day was our Science day! It was so lovely to see everyone join in and enjoy doing something different.

We have been looking at the book 'The Hodgehog' and we have all really enjoyed copying Max's jumbled up speech. We also wrote our own food poems which were amazing! I was so proud of everyone. In maths we have been learning all about measuring. The children loved measuring their pencils and weighing their school items.

The children have enjoyed looking more at the local village. We have been on a village walk and learnt all about maps. In Science we have been studying food chains and animal habitats. We found so many different minibeasts on our walk through the field!

This term the children have all thoroughly enjoyed our Computing lessons. These are by far their favourite lessons. We have been using 'googlechromelab' to create our own music on the computers! Why not have a go at home?

We've also had Pancake Day, World Book Day, Science Week AND Red Nose Day. I've loved seeing everyone's outfits for dress up days and their enthusiasm at any extra-curricular things we do!

Here is some of our amazing work. On Science day we turned cream into butter. Everyone then tried it- it was delicious! We also looked at many more experiments. We cleaned coins with ketchup, saw water walk, made paper cup telephones and looked at vibrations!

Next term we will be learning about The Great Fire of London, plants, fractions, time and robot algorithms along with a new book in English. Next term the children will also be sitting their SATs papers and I know they will all be superstars!

Well Done Willow class!
I look forward to seeing you all after half term.
Please continue reading at home and learn your spellings.
I have seen such a great improvement in your spellings so far this year, well done!
The children also have their numbots logins at the back of their contact book to play at home.

P.E days are Monday and Friday
